BAND STORY

"

Black Chamber A group of elite Hip-Hop emcees, which was founded in 2006 by, emcees Kal Tourette, Dezyne, Sam-u-ill, and Pihon. Along with their associates Foreign Diplomat aka Da Apostle and Gee-man, Black Chamber has defined it's self as one of the most unique representations of Hip-Hop groups since the early to mid 90s. The four emcees grew up in Kenya and traveled to America seeking to broaden their opportunities.

The Black Chamber rebels found a mission and a basis for their music and decided to start a revolutionary movement that could shatter the foundations of religion, politics, history books, Music Industry, etc. As you may know them today.

Not into the pop gimmick attitudes flaunted by many in the industry today, the chamber keep making positive music to elevate minds and encourage people to a more, free thinking, world. Black Chamber became a Hip-Hop group after the movement was first established in late 2006 and through their music it has already reached many.

Currently the chamber rebels are focusing on a refreshing aspect to a tired and bombarded culture that once was proud to be known as Hip-hop with their new street release "Black Chamber Compilation", along with the staff, Foreign Diplomat aka Da Apostle(graphix, beats), and Gee-man, The Chamber will be working on future solo's and group efforts. The future is here, be on the look out and as always YaH Bless
