### BAND STORY

"I'm a DJ from the womb to the tomb, its my passion, love, and has been my fulltime job for the past years. I've been Djing for about 7 yrs and I love what I do & wouldn't trade it for anything in the world. In the past years I have been blessed enough to accomplish a lot by starting off doing regular pay cut gigs, then moving on to opening up in concerts for Hip Hop recording artists, Necessary Noise, Juacali, Prezzo, Nameless, Redsan, among others in shows in Nairobi & Parts of Kenya. I started out with OUTCODES a Dj unit in US and had it's a small unit here in Kenya in 2001, later I joined the HOMEBOYZ in 2002 as an intern and later gradated to a Dj, Sound Engineer and manage weddings under Dj Pete Waithaka whom I thanks God for everything he has done to me and believing in me always up todate. I have worked along side Dj Pinye, Dj Adrian, Dj John, Dj Kaydee, Dj Babu (Take Over Dj's in the US),Dj Kofi (UK),Dj Edu (Uk)and many more .There are dozens of accomplishments still to come as"
